Pretoria Able to Withstand a Year's Siege—Mafeking's Relief.

[A. P. NIGHT REPORT.]

LONDON, May 24, 2:40 a.m.—[By Atlantic Cable.] Lord Roberts is drawing near to the frontier of the Transvaal. His infantry masses are thirty-three miles north of Kroonstad, at the Rhodesia River. Some thousands of cavalry are already across the river.

The Boers are retiring toward the Vaal with their heavy baggage. They are reported from Pretoria as already across that river. Twelve thousand men and four guns compose the retreating army. Trains continue to run from Vryburg, at the Vaal, to Pretoria.

Foreign engineers assert that Pretoria is able to stand a year's siege. According to advice from Lorenzo Marques, the Pretoria fortifications are described as complete, but Johannesburg has not yet been laid out in a state of defense. The Transvaal government papers and the war chest have been removed to Lydenburg.

Foreigners continue to leave the republic. The Dutch cruiser Freeland is at Delagoa Bay. It is reported, to furnish an asylum to the fleeing Hollanders and give them a passage to Europe.

The Boer forces continue to dwindle. Some of the correspondents assert that probably only about 500 of the hardy fighters yet remain, although there are detached parties in various parts of the Transvaal.

One of the curious pieces of gossip from London during the day is that several women tried to slay President Kruger, who was rescued by his bodyguard. He rarely leaves the President's house, but was evidently holding councils with his daybreak staff during the night. Sunday, sundown, the government pronounced the British prisoners from Pretoria.

Mafeking dispatches continue to pour into London relating to events immediately preceding the relief and the entry of the troops.

The Boers have agreed to withdraw.

Foreigners continue to leave the republic. The Dutch cruiser Freeland is at Delagoa Bay. It is reported, to furnish an asylum to the fleeing Hollanders and give them a passage to Europe.

THURSDAY, MAY 24, 1900.

[COAST RECORD] BIG MASS OF DEBRIS.

All That is Left of Lakeview, Or.

Fire Lays Entire Business District in Ruins.

'Own' Train's Mishap—No Plague Case—Pythian's Parade.

LA. P. DAY REPORT: RENO, May 23.—A special to the Gazette says the entire business part of Lakeview, Or., with the exception of two small houses, was destroyed by fire this morning.

BUT TWO BLOCKS SAVED.

(A. P. DAY REPORT) RENO, May 23.—Indicated in the business section of Lakeview, Or., the paper offices of the Chamber and Rustler, and three hotels. The only business structures saved were the drug store of Dr. Bernard Daly, Democratic nominee for Congress in the First District, and the implement house of J. E. Woodward & Son. The fire started in a cigar shop.

The town is a mass of debris. The entire loss is estimated at \$350,000; insurance unknown. There is no actual suffering as the people are being provided for. No lives were lost.

PLAQUE SITUATION UNCHANGED. NO CASES REPORTED TO EXIST.

(A. P. NIGHT REPORT)

SAN FRANCISCO, May 23.—The bubonic plague situation remains unchanged. Dr. Williamson, president of the local Board of Health, said tonight that no new cases had been reported, and that none were known to exist in this city or State. A number of Chinese and Japanese were inoculated with the plague vaccine, and the doctors do not expect any who are exposed to assist the health officials. Strict sanitary measures are being enforced in the Chinese quarter, and the authorities do not anticipate any outbreak of the disease.

The local newspapers still insist that there have been no cases of plague and that there is no danger to the public health. The middle class Chinese merchants have issued a circular printed in English stating that inoculation will protect the individual, and is not permitted by their religion. They also assert that there is not, nor has there ever been a single case of the plague in San Francisco.

Although most of the Chinese stores remain closed as a measure of protection against possible trouble from the plague, the middle class Chinese merchants are quietly calling on their co-religionists not, and it is not difficult to procure medicines and provisions needed by the Chinese residents. Meetings are held frequently at the temple, the various temples and the meeting of the Chinese inoculation.

The officials do not enforce inoculation, except in the Chinese quarter, and the authorities do not anticipate any outbreak of the disease.

TO KEEF OUT ORIENTALIS.

(A. P. DAY REPORT) OAKLAND, May 23.—At a meeting of the Board of Health this morning there were present Supervisors Root and Church of the county board, and members of the Board of Health and Standard from Berkeley and Alameda, respectively. The visitors agreed to aid the local Board of Health in stamping out the Chinese and Japanese out of this city unless they come here under a clean bill of health. They declared, however, that they were working in the same field with regard to the measures which had been taken by the Board of Health of San Francisco.

The matter was finally referred to the Committee on Foreign Diseases of the board, and a meeting of the organization was to be held again this evening at 8:30 o'clock.

TO SECURE GOOD ROADS.

(A. P. DAY REPORT)

STOCKTON, May 23.—Sen. S. C. Smith of Bakersfield has in preparation a bill which he will present to the Legislature at the next session, the object of which is to provide a simple and direct method of securing good roads throughout the State. It is a bill for the formation of a good roads district. A synopsis of it has been furnished the Associated Press as follows:

When the property owners of any locality in a county desire to have constructed a road, and they may by a two-thirds vote of the property owners, form themselves into a good roads district. If the necessary two-thirds vote is secured, they will then become the duty of the Board of Engineers to declare the district formed. The services of the Board of Engineers will then be called upon to make a survey in connection with eastern and London parties, to build a road between Salt Lake and Denver. This will have as adjuncts a coal-mining company and a steel manufacturing plant. The latter will be located in Colorado in the Tampa area, and the former in the Colorado River valley. The Coroner's Jury will investigate his actions. The Coroner's inquest will be held tomorrow night.

HUNTINGTON'S NEW ROAD.

(A. P. NIGHT REPORT)

FROM SALT LAKE TO DENVER. SAN FRANCISCO, May 23.—The Examiner tomorrow will say that C. P. Huntington proposes, in connection with eastern and London parties, to build a road between Salt Lake and Denver. This will have as adjuncts a coal-mining company and a steel manufacturing plant. The latter will be located in Colorado in the Tampa area, and the former in the Colorado River valley. The Coroner's Jury will

investigate his actions. The Coroner's inquest will be held tomorrow night.

Survey for Barge Canal.

(A. P. NIGHT REPORT)

OAKLAND, May 23.—The Executive Committee of the Merchants' Association has employed City Engineer Manus to make a survey for the proposed barge canal from the city to the San Joaquin River.

The bill contemplates that before a good roads district may be formed, the entire plan of work must be completed, and the commissioners determined that the work may be taken up immediately. The plan is in successful operation in the State of Indiana.

PYTHIANS ON PARADE.

GREAT DAY AT SALINAR.

(A. P. NIGHT REPORT)

SALINAS, May 23.—The result of the Knights of Pythias celebration in this city today was the parade this morning which was one of the most elaborate pageants ever seen in this section of the State. Fully 2000 people were in line and the civil, military and fraternal organizations were in full regalia, presenting a very fine appearance. The military and fraternal orders of Salinas and surrounding towns participated.

The parade included citizens in carriages gaily decorated with flowers and a number of handcars. The Salinas school children made a grand appearance and delegates of grand lodges of Knights of Pythias and the Rathbone Sisters. The line of march was thronged with enthusiastically cheering people. The surrounding towns all sent excursion

trains full of people to witness the parade.

The Pythians and Rathbone Sisters each had a morning session but afternoon session of the day. The business was accomplished by either order, the important work being left for this afternoon, when a long sitting will be held.

COMMITTEE REPORTS.

(A. P. NIGHT REPORT) SALINAS, May 23.—At the afternoon session of the Knights of Pythias, the important business was accomplished by either order, the important work being left for this afternoon, when a long sitting will be held.

The opposition to the hotel started in the evening against permitting the sale of beer in the hotel. Some impeded and slowed up the proceedings, but did not grant the franchise. The special committee appointed yesterday to examine into the proposition to make the sessions of the Knights of Pythias instead of annual brought in an unfavorable report. No further action was taken therein.

A strong effort on the part of the Knights of Pythias is being made to have the next Grand Lodge meet in that city.

Grand officers will be elected tomorrow. There are eight candidates for the position of Grand Prelate. Rev. W. T. Jester, of Great Creek, W. Va., is the leading candidate, followed next, next Grand Chancellor, and L. C. Calkins of Nevada City, the present grand prelate, who became Grand Vice-Chancellor.

At a meeting of Uniform Rank Knights of Pythias, Brig.-Gen. C. F. McGivern was reelected to his present office for the term of four years, and a resolution was passed to send to the Supreme Assembly at the Uniform Rank Knights of Pythias to meet in Salinas in 1901.

The Knights of Pythias and Rathbone Sisters also had a session today, routine business being transacted.

COLUMBIA RIVER STORM.

(A. P. DAY REPORT)

ASTORIA (Or.), May 23.—The storm which suddenly struck the northwest, this morning, over the portion of the Coast at this time of the year. The wind reached a velocity of over sixty miles an hour. Fishermen were everywhere on the river with their nets out, as the morning had opened up a new trial.

Ross assassinated Ward 11. Mr. Ward, while en route to Fort Harrison, while en route to Fort Harrison, was shot in the head by James Quisenberry ten years for burglary, fracturing his skull and inflicting injuries which caused his death. November 11. Ross was indicted in December, and in April tried and found guilty of murder in the second degree. The case will be appealed to the Supreme Court.

MINING IN SIBERIA.

(A. P. EARLY A.M. REPORT)

SAN FRANCISCO, May 23.—Considerable California capital has been invested in an extensive mining enterprise in Siberia and Manchuria. Concessions for large tracts of land have been obtained from the Russian and Chinese governments and the work of development will soon begin. The Chinese says that the syndicate has engaged fifty-two experienced miners in this State and ordered \$200,000 worth of modern mining machinery. Part of the equipment is to be shipped from this city and New York. The mines are placed in character and will be worked on a very extensive scale.

Hardy had the Fort Stevens life-savers get into port when the Cape Disappointment steamer came in with seven other men picked up, and a report of two drowned. So far as is known the drowned are:

ALBERT JOHNSON. JOHN VERAUDAT. SAKE KOOPETTA.

That this does not complete the list is due to the fact that the names given are all those of men whose bodies have been recovered up to midnight. It is reported at McCloud that the miners of the mine had no chance to save themselves. It is feared the loss of life will be much greater than reported.

COURAGE AVERTED DISASTER.

(A. P. NIGHT REPORT)

SENSATIONAL FIRE AT OAKLAND.

(A. P. NIGHT REPORT)

HANFORD, May 23.—Albert Corkery, a young married man, despondent and unable to earn a living, drank concentrated sulfuric acid in a public street, and died without a struggle. His body was found in a sewer.

Footpath Victim Guilty.

(A. P. NIGHT REPORT)

STOCKTON, May 23.—The Wagner Finkholmer Company's big slaughterhouse, a mile east of town, were destroyed by fire last night. Several boxes of some stock were lost in the fire. The loss will amount to \$5000, partly insured.

The trains were drawn up on each side of a freight shed and during the night dynamite and powder. They used felt blankets in handling the explosives, and when they quit work the dynamite exploded. It is supposed that a spark from a switch engine ignited one of these blankets. The shed was soon in flames, which quickly communicated to the dynamite.

There was a scarcity of water, and as a last resort switch engines were coupled to the cars, which were driven under the pressure tanks by the ends of the trucks used for filling the boilers of locomotives. This water was turned off the fire from the top and the firemen were compelled to go to the roof of one of the dynamite cars to burn through, but no explosion occurred. It required the efforts of several switch engines to keep the crowd of spectators at a safe distance from the yards.

The firemen and railroad hands, though facing certain death, did their duty and their prompt action doubtless prevented a terrible disaster. The loss will be heavy, but cannot now be estimated.

HUNTINGTON'S NEW ROAD.

(A. P. NIGHT REPORT)

OAKLAND, May 23.—Engineers Shaw, who was killed in the railroad wreck last night, will be buried by the Brotherhood of Engineers. Thursday. Friends and relatives of the deceased, and the bereaved Swichman McDowell, who is accused of causing the wreck by leaving a switch open, not disappeared. He denied that he caused the wreck. The Coroner's Jury will investigate his actions. The Coroner's inquest will be held tomorrow night.

Survey for Barge Canal.

(A. P. NIGHT REPORT)

OAKLAND, May 23.—The Executive Committee of the Merchants' Association has employed City Engineer Manus to make a survey for the proposed barge canal from the city to the San Joaquin River.

The bill contemplates that before a good roads district may be formed, the entire plan of work must be completed, and the commissioners determined that the work may be taken up immediately. The plan is in successful operation in the State of Indiana.

PYTHIANS ON PARADE.

GREAT DAY AT SALINAR.

(A. P. NIGHT REPORT)

SALINAS, May 23.—The result of the Knights of Pythias celebration in this city today was the parade this morning which was one of the most elaborate pageants ever seen in this section of the State. Fully 2000 people were in line and the civil, military and fraternal organizations were in full regalia, presenting a very fine appearance. The military and fraternal orders of Salinas and surrounding towns participated.

The parade included citizens in carriages gaily decorated with flowers and a number of handcars. The special committee appointed yesterday to examine into the proposition to make the sessions of the Knights of Pythias instead of annual brought in an unfavorable report. No further action was taken therein.

A strong effort on the part of the Knights of Pythias is being made to have the next Grand Lodge meet in that city.

Grand officers will be elected tomorrow. There are eight candidates for the position of Grand Prelate. Rev. W. T. Jester, of Great Creek, W. Va., is the leading candidate, followed next, next Grand Chancellor, and L. C. Calkins of Nevada City, the present grand prelate, who became Grand Vice-Chancellor.

At a meeting of Uniform Rank Knights of Pythias, Brig.-Gen. C. F. McGivern was reelected to his present office for the term of four years, and a resolution was passed to send to the Supreme Assembly at the Uniform Rank Knights of Pythias to meet in Salinas in 1901.

The Knights of Pythias and Rathbone Sisters also had a session today, routine business being transacted.

COLUMBIA RIVER STORM.

(A. P. DAY REPORT)

SALINAS, May 23.—At the afternoon session of the Knights of Pythias, the important business was accomplished by either order, the important work being left for this afternoon, when a long sitting will be held.

The opposition to the hotel started in the evening against permitting the sale of beer in the hotel. Some impeded and slowed up the proceedings, but did not grant the franchise. The special committee appointed yesterday to examine into the proposition to make the sessions of the Knights of Pythias instead of annual brought in an unfavorable report. No further action was taken therein.

A strong effort on the part of the Knights of Pythias is being made to have the next Grand Lodge meet in that city.

The Knights of Pythias and Rathbone Sisters also had a session today, routine business being transacted.

(IN THE OIL FIELDS.)
BARS LET DOWN.Gambling in Non-Productive
Oil Companies.The Day's Doings on the Oil Exchanges
and at the Wells.

There was a decided increase in the business on both exchanges yesterday over the amount of the previous day. Prices had assumed a normal tone and all stocks were strong. On the Los Angeles Oil Exchange the following business was transacted:

Stocks	Shares	Price
Units Gas	1,000	\$1.00
Burnt Gas	1,000	1.00
Woolstock	1,000	1.00
Gasoline	1,000	1.00
Total	5,000	\$5,000.00

Bids and offers on stocks in which no trading was done were as follows: Union 50 cents asked; Continental 50 cents bid, 50 cents asked; Northwest 75 cents bid, 50 cents asked; Wilson 47 cents bid, 75 cents asked; Standard Petroleum 100 cents bid, 100 cents asked; Foothill 100 cents bid, 100 cents asked; Transocean 144 cents bid, 144 cents asked; Alpha 35 cents bid, 35 cents asked; Standard 25 cents bid, 25 cents asked; Standard 25 cents bid, 25 cents asked; Pacific 25 cents bid, 25 cents asked; California 25 cents bid, 25 cents asked.

The transaction on the California Oil and Stock Exchange yesterday were as follows:

Stocks	Shares	Price
Units Gas	1,000	\$1.00
Gasoline	1,000	1.00
Woolstock	1,000	1.00
Gasoline	1,000	1.00
Total	5,000	\$5,000.00

UNLIMITED STOCKS.

Quotations on other stocks were: Union 50 bid, 50 cents asked; Central 100-135 bid, 140 asked; Continental 50 bid; Burlington 50 bid, 50 cents asked; Julian 50 bid, 50 cents asked; Williams 25-35 bid, 40 asked; Oceanic 37 bid, 30 asked; Rommel 25 bid, 27 asked; Turner 100 bid, 105 asked.

The following is a list of wildcats offered by any exchange in Los Angeles:

Stocks	Shares	Price
Units Gas	1,000	\$1.00
Gasoline	1,000	1.00
Woolstock	1,000	1.00
Gasoline	1,000	1.00
Total	5,000	\$5,000.00

McCrory Brothers Crude Oil sold, 100 shares at 50 cents.

Tankers Hill was a favorite, going from 12 to 20 cents. Sales were 500 shares at 12 cents; 700 at 15 cents; 500 at 15½ cents; 400 at 16 cents; 1000 at 20 cents; 200 at 25 cents; and 500 at 25 cents buy 30 cents.

Propositions to buy or sell "wildcats" were made on about forty different stocks.

BROKERS' COMMISSION.

In addition to the commission of 1 per cent. on the par value of the stock, the California Oil and Stock Exchange charges a fee of 1/4 of 1 per cent. for handling stocks of unproductive companies. This of course is paid by the buyer and seller and not by the broker. The commission of 1/4 per cent. on the par value of the stock is as fixed as the laws of the Medes and Persians. In order to enforce the decree in regard to the stock of the non-productive companies of the California Oil and Stock Exchange has enacted a rule, announced for the first time yesterday, that any broker found to be in the practice of charging more than 10 per cent. on the par value of the stock should be fined a sum not less than \$50. (maximum indefinite) and stand suspended until the fine had been paid.

TALK OF THE DAY.

The question of brokerage was the leading topic of conversation on both exchanges and on the streets yesterday. Many brokers have been instrumental in the oil industry and of the exchanges at heart, are not slow in expressing the opinion that an adherence to the rule of charging 1 per cent. on the par value of the stock of the non-productive companies of a brief time. One broker, who is a man of means and experience, expressed himself as follows: "I have been engaged in the oil business for 10 years and I have never heard of a proposition to tax the buyer of a 10-cent stock a commission of 10 per cent. on his purchase, and the buyer of a \$1 stock 1/4 per cent. on its par value. In the transaction I have known the lower the price of stock the lower has been the commission, and vice versa. Can you conceive of anything more ridiculous than that?"

Another broker, who is a man of means and experience, said: "I have a single share of \$400 stock, and \$15 for buying him 1000 shares of 25-cent stock with the same money? Or to put it another way, if I buy 1000 shares of stock, buying at 50 cents and selling at 55 cents. Now if I had been buying and selling a hundred thousand shares, I would have made \$500 on the transaction, but by the rules of the new exchange to have charged \$50 on each transaction and while he made \$50 by the use of his \$500, I would have made \$500 on the transaction. He takes all the risk and I take almost one-half the profits."

The adherents of the proposition to charge 10 per cent. on the par value to the expense of the broker, to the small amount of transactions and the risk of customers refusing to accept stock bought or delivering stock sold. One of the brokers said: "It is only a gamble anyhow, and when I play for bank I don't stop to ask what the percentage is against me." The well known deader of the world is to be the last to give up the game, and if the master is to be reduced to a pure gamble, the sooner the investing public is informed of the fact, the better it will go for all concerned.

The future of Old Glory stock is incomprehensible to the average observer. On every side yesterday when Old Glory was mentioned by rapid fire, brokers and customers were asking each other "What does it mean?" It was rumored that the Old Glory company had sold out to the Standard Oil Company, which is yielding 400 barrels daily. When the secretary of the company was asked about the report, he refused to give any information, but said the truth or falsity of the rumor he merely responded, "Things are looking blue with us." The question "Like the Blue Goods, for instance?" brought

a laugh, but no affirmation nor denial.

THE WELLS.

The Brea Cañon Oil Company has its well, No. 4, down about 400 feet. No. 2 is driving for the second oil band, the first having been cased off, and is down about 200 feet. No. 3 is pumping, and heavy work is being done with the well. No. 1 has recently been cleaned out, and is producing better than ever before.

The Grayrock Company has begun operations on the Anderson lots at the corner of Fifth and Commonwealth. A Derrick has been in place there for some time, but operations in other quarters have delayed work being commenced.

ON THE KERN RIVER.

(Bakersfield Echo) Negotiations have been pending for some time for the purchase of all or a part of the Rose Oil Company's Kern River holdings and the refinery located at Bakersfield. W. H. de Groot, Dr. W. P. Rock and C. C. Wright, were in conference with prospective buyers in Los Angeles yesterday. J. B. Moore, General Manager of the Rose Oil Company, is one of the bidders, and there is a third whose name is unknown. One of the members of the company told an Echo reporter that the Rose Oil Company had a well in the section of Bakersfield, and a dry well in the section of Taft.

HUNTING FOOTPADS.

TRACTION CAR ROBBERS NOT YET CAPTURED.

There were no developments yesterday in the traction car hold-up which occurred Tuesday night at the Boyle Heights terminal. The police worked hard all night and yesterday on the strength of new leads, without success, but without doubt, it is pretty certain that the robbers, or at least two of them, traveled to and from the scene of the hold-up in a wagon. The third member of the gang is still at large.

Although nothing has yet developed north of Pico Creek, many operators are turning their attention that way, and there are reasons for doing so.

F. W. Peicher and Gerber have taken options to buy 15, 15, and 27 at \$50 an acre.

A QUARRY MAN.

WILLIAM BANNON HAS ROCK FOR SAN PEDRO BREAKWATER.

William Bannon, a quarry man and the owner of the stone quarry at Chatsworth Park, returned to the Ramona yesterday after a brief absence from the city. Mr. Bannon is in Los Angeles in the interests of his quarry which he hopes will furnish the material for the new breakwater at San Pedro. The quarry is about nine miles from San Fernando and within about one-fourth of a mile of the terminus of a branch of the Southern Pacific Railroad running from Glendale to Mr. Bannon, the quarry is capable of furnishing an almost unlimited supply of rock. He says the quality is very superior both in hardness and weight. The rock weighs on an average about a hundred and sixty-three pounds to the cubic foot. The specifications call for rock that weights more than 150 pounds to the cubic foot.

Mr. Bannon says he has great confidence that his quarry will be selected. The president of the California Construction Company visited the quarry and a deal was made with him, according to which the rock will be furnished to the Chatsworth stone.

Vice-President McNally is expected within a few days, and Mr. Bannon believes the deal is closed.

While keeping open for the "main chance" Mr. Bannon is neglecting no opportunity to dispose of his rock in other directions. Today he gave away a large sample of the product of his quarry. He believes his rock will be the material selected for the construction of the new Courthouse in this city.

Mr. Bannon has had much experience as a quarry man. For nearly ten years he was in the employ of the International and Great Northern Railway in Texas. He had charge of

the quarries from which rock was taken for the jetties in Galveston Harbor. Later he was placed in charge of the quarry from which came the rock to build the large State Capitol building at Sacramento.

Some years ago, he came to California for his wife's health. He landed in San José. His eastern friends had given him letters of recommendation to the late Governor, James D. Phelan, and he was employed at the Grayrock quarry which furnished the stones for the Stanford University buildings. He came to Southern California and acquired the Chatsworth quarry and now is ambitious to furnish stone for the breakwater.

The distance between the quarry and San Pedro Mr. Bannon says is about forty-eight miles. The Southern Pacific, it is claimed, has no other interest in the matter than that of a common carrier.

TRACTION FOOTPADS.

F. W. BOYNTON, Vice-President.

M. M. DAVISON, Secretary.

H. C. DILLON, Treasurer.

W. J. DOWD, Director.

DEPOSITORY, Farmers & Merchants Bank.

The Hartford Oil Company,

Phone Main 298. 107 South Broadway Los Angeles, Cal.

This company owns its own land, consisting of 2,600 acres situated in the famous *Sunset and McKittrick Districts*, where a dry well has not yet been struck. Oil is flowing from the earth in rich streams on all sides of us; we cannot fail. Capital stock \$500,000, fully paid and non-assessable, par value \$1.00.

Selling rapidly at 10 cents per share until first well is assured.

We regret to announce the resignation of Mr. Frank S. Jenkins, manager of our San Pedro office, effective immediately. The removal of his mother and pressing railroad business have called him east for several months. Mr. F. W. Dillon, President of the Sperry Flour Co., widely known and distinguished for energy, good judgment and integrity, has become his successor.

Don't wait. Don't put all your eggs in one basket. Follow the law of average. Also invest in the Hartford.

All stupendous characters are being sought after by the police, and the number of vagrants and hobos is gradually diminished by frequent arrests and imprisonment of the undesirable. Frank S. Jenkins, manager of our San Pedro office, was sent from Central Avenue yesterday and shown to the watchman, after which he was turned over to the sheriff with instructions to find some honorable employment.

UNKNOWN DEAD VETERAN.

The body of a man, badly decomposed, was found by Mr. Root, of the Centenario ranch, Tuesday evening, in the sand hills about five miles east of Inglewood, in the Freeman ranch. The body was minus coat, vest, hat and shoes, but these, with the remains of a shirt, were found some distance away. The coroner went out yesterday to make an investigation, but the cause of death could not be determined. The body was in an advanced stage of decomposition. The garments showed the deceased to have been a veteran, and the number on the clothes was 100. The coroner ordered that the body be buried in the County Hospital.

DEMENTED ITALIAN WOMAN.

Ella Lorenzi, a middle-aged woman with little education, was found by Constable J. M. Hart last night wandering over the country between Burbank and West Tropic, where she had frightened a number of people with her unearthly screaming. She was taken to the County Hospital.

Capitalization.

500,000 shares, par value \$1.00.

360,000 shares in the treasury.

Incorporated April 12, 1900, under the laws of Arizona.

Stock non-assessable, fully paid when issued.

Officers.

WILLIAM GILLETT
President O. H. STILSON
Vice-President J. H. STANDING
Treasurer BROADWAY BANK AND
TRUST CO.

Secretary L. J. BARBER

Directors.

WILLIAM GILLETT, President Broadway
Bank and Trust Co.
Geo. L. Cochran, Attorney, Los Angeles, Cal.
O. H. Stinson, President First State
Bank, Corwith, Iowa.
J. H. Standing, Cashier First State
Bank, Corwith, Iowa.
L. J. Barber, Capitalist, formerly Cor-
with, Iowa.

The Hawkeye State Oil company was incorporated April 12th, 1900. It now controls over 400 acres of proved oil lands in two of the best approved oil sections of this State, with other valuable leases pending. Three hundred and twenty acres in the Big Panoche strip and eighty acres within one-half mile of railway at Coalings. These are the fields that have recently made the Big Panoche, Old Glory, Union and Home Oil Companies so famous.

Predictions have been repeatedly made by those in a position to know that at no distant day the petroleum output of California will exceed its productions of gold and silver. We believe it is true and we further predict that the favorable location of the "Hawkeye" holdings will place our stockholders in a position to get a generous share in the benefits of this great industry.

The attention of financiers and expert oil men have been attracted by the superior indications of these fields and rich strikes in each are of frequent occurrence; as witness the Union Oil Company's six heavy flowing wells; and "Old Glory's" recent find in the Panoche. Two rich strikes at Coalings occurred during the second week of May. One of these, the Home Oil Company's No. 5 was a "gusher," the other at the "Independence" holdings was a hundred barrel well both of high gravity, netting \$1.40 per barrel on track. The close proximity of the Hawkeye holdings to each of these, its particularly fine geological formation; its oil seepage and springs all go to prove that no mistake has been made in location of our holdings and that intending investors can make no mistake in buying "Hawkeye" stock.

You expect to buy oil stock sooner or later. Everyone does. It is the proper thing to do, provided you know your company. The personnel of our directorate is a strong guarantee of honest, conservative management. Our stock is sure to advance. A few dollars invested now in "Hawkeye" stock will soon double and be worth possibly par within ninety days.

The directors of the Hawkeye State Oil Company are well known business men of integrity, experience and acknowledged ability. They each have made a signal success of their own private business. They will make "Hawkeye" equally successful. Our directory contains no "figureheads." Our directors have subscribed and paid for enough stock to buy and pay for a first-class standard drilling outfit complete. The rig is now on the ground, complete, with water in the boiler ready for work. Our stockholders do not have to wait for us to sell ten cent stock for three months, before they see visible signs of business on the field. Our directors not only mean business but they show business right from the start by first putting their own money into this proposition.

This is an opportunity for investment from business men to business men. The fact that our directors have carried on developing operations for six weeks in building roads, buildings and full drilling outfit before offering stock to the public, places the "Hawkeye" in a class by itself.

The future development will be made from the proceeds of the sale of the treasury stock. When oil is struck the proceeds of its sale will be divided pro rata among the stockholders as a monthly dividend.

The Hawkeye State Oil Company is capitalized for 500,000 shares, par value of \$1.00 each. 360,000 shares of the capital stock has been placed in the treasury for development purposes. It is organized under the laws of the Territory of Arizona. Our stock is non-assessable; fully paid when issued; with no stockholders' liability. Our officers receive no salary for one year from date of incorporation.

The stock of the Big Panoche and Old Glory oil companies is now selling at \$3.00 and 50c respectively. Our lands adjoin theirs on three sides. We will reap the benefits of their development and experience.

So that it can safely be predicted that the stock of the "Hawkeye" Company will advance very rapidly and soon reach par, as its first well will be put down on the ground immediately adjoining "Old Glory," who has recently made such a fine strike of high grade oil.

A limited block of 50,000 shares of "Hawkeye" stock is now offered at 15 cents for \$1.00 shares, fully paid, non-assessable. We predict that this limited block will not last long, as the development showing which our directors have already made, makes it the best buy the market affords at 15 cents. This is our ground-floor price. Don't wait until this stock advances; but join hands with successful men. Our location, on three sides of "Old Glory," and only 40 rods from their recent great strike, will make "Hawkeye" in big demand. In order to keep our stock out of the hands of speculators, our board has limited the amount to be issued to any one person. Note our moderate capitalization, then note the high percentage our Treasury Stock holds to the whole capitalization. Read "How to Judge an Oil Company," then judge ours.

Mail orders for stock will receive prompt attention. Make all checks or orders payable to Hawkeye State Oil Co., Rooms 224-226 Homer Laughlin Building, Los Angeles, Cal.

Distress after eating

FROM THE SUNNY ISLES.

PLAQUE GONE AND BUSINESS ACTIVE AT HONOLULU.

[A. P. EARLY A.M. REPORT.]

SAN FRANCISCO, May 22.—The steamer Australis brings Honolulu advicew to May 12. At that date there was no plague in the city. The plague for forty-six days and business had resumed its former activity.

Alexander Young, Minister of the Interior in President Dole's cabinet, who has announced his intention of resigning, arrived on the Australis on private business.

The plantation agencies have all

united in their efforts to secure contracts for the sale of sugar for the next three or five years. The present

crop was taken up by the sugar trust worth \$100,000.

The reform element of the Chinese in Honolulu is rejoicing over the news that Lau Hoek Sun, the scourge and

chief of the reformists in China, is

now well and will shortly

rejoin the families of two California

Chinese merchants near Canton. He

was active in the effort to apprehend

the reformer Kwang Yu Wei.

SHAKE-UPS IN MEXICO.

MANY BUILDINGS DEMOLISHED BY THE EARTHQUAKE.

[A. P. EARLY A.M. REPORT.]

GUADALAJARA, Mex., May 23.—A special to the Record from Guadalajara, Mex., says:

"Many buildings in the town of the

Aztec, situated in the northern part of the State of Jalisco, were demolished

by the recent earthquake. When the

first tremblings were felt, the inhab-

itants fled to the mountains. Has they

remained in their houses there would

have been heavy loss of life. Much

damage was also done in Tucumán,

and in the provinces of Durango and

Nayarit. The damage in the latter

was estimated at \$100,000.

The water of a large lake near the

town of Zapotlán disappeared in a

great fissure in the earth which seemed

to have opened by a sudden shock that

lasted about one minute. The

former lake is now dry, and from one to three

feet wide and three feet deep, which

swept in from the ocean after the

shock did little damage."

A reception was given at the Wash-

ington Street United Presbyterian

Church Tuesday evening in honor of

Rev. Mr. Henry W. Clegg.

Crabbie has recently returned from the

Women's General Missionary Conven-

tion, which was held at Pawnee, Neb.

The work of the convention had de-

veloped into a great artistic and

social gathering.

NOTES AND PERSONALS.

Mrs. Henderson Hayward will enter-

tain the lady members of the Orange

Womans Club at luncheon to-mor-

row afternoon at her home on Wil-

shire Boulevard.

Mr. and Mrs. Eugene Riggles enter-

STOCK NON-ASSESSABLE.

Yankee Doodle Oil Co.

524-526 Laughlin Building,

Again to the Front!

We now offer the public 100,000 shares of our capital stock at 25 cents per share.

During the past 30 days we have been too busy building our first rig and commencing to drill on our Newhall field to make any offers of stock to the public. We now, however, have one of the best rigs in the State, fully equipped and paid for, with which we are pushing work right along, and will in the near future have a fine well.

We have now acquired by purchase, in addition to our Newhall property, 40 acres in the now famous Township 28, Range 28, Kern County. Bounded on all sides by producing wells, this 40 acres alone is a fortune for our company. We have also to inform you that by a lucky stroke on the part of our officers, we are now the owners of 640 acres of first-class oil lands situated between the McKittrick and Sunset districts. This also is contiguous to the great McKittrick gushers.

This now makes our total holdings 740 acres. We absolutely own without royalty 680 acres, and have under lease 40 acres for 40 years at 1/4 royalty.

This issue of stock will surely go as rapidly as our first issue, so don't delay in your purchase.

The proceeds from this sale are to be put into extensive development work on the Kern River and McKittrick fields.

Our stockholders and the public are welcome to our camps, and the Newhall field can be reached in a 1 1/2 hours' ride from Los Angeles.

Come and see what we are doing and you will go away satisfied that we are sure to get a fine flow of light oil in the next 60 days.

We are an independent company, and our stock is not given away by any other company as a premium, and will surely be worth several times its present value in a few weeks. Address all orders to

(*The minimum is for yesterday; the maximum for day before yesterday. The mean is for the previous two days.)

PARAPHRASITES.

The Summer Rush. Already the postal authorities are preparing for the summer migration to the coast. Inspector Flint yesterday forwarded a recommendation to the department, asking for two more telegraph offices, one at Santa Monica and one at Long Beach.

Teachers Meeting.

The regular monthly teachers' meeting will be held in the High School auditorium at 6 o'clock Saturday morning.

President of the University of California, Dr. F. N. Fiske, of the faculty, will address the teachers on special subjects.

Campus Marching Club.

The efforts of the students are being put to good use in an attempt of the fall campaign. The McKinley Club, of which Dr. G. S. Barnes is president, is a sponsor for the "Southwest Campaign." The club will hold its tenth annual meeting on May 25 at 100 West Washington street. R. W. Atkinson, the committee chairman, will preside. From the number of applications, the officers of the club anticipate a membership of at least 300.

Hanford Blue.

J. F. Clifford, who says he works at the Hanford Ranch and lives at No. 1850 West Broadway, has driven on the mountains like a痴 of India rubber last night without injury. He was somewhat under the influence of liquor, and tried to drive northward in front of a truck car. Clifford was struck, and rolled and bounced about twenty feet. At the time of the accident, where he lay unconscious and not a sign of an injury could be found on him, Clifford's automobile did not reveal a scratch.

Chevy Over Dashboard.

Miss Dora E. Dawson, living at No. 1800 West Broadway, was severely hurt while driving to her home in a buggy Tuesday afternoon. A vehicle bound over her struck her vehicle and dashed it into the sidewalk. The front wheel of the buggy struck an iron hitching post and the buggy was thrown over the dashboard, causing a fractured rib, a dislocated shoulder and other injuries. The company's manager attended her, and yesterday she was easier.

Assuming Thorings.

We send portions of Assumption Thorings will be held today in the Catholic and Episcopal churches. At the First Episcopalian, the devoted members will have a solemn Holy Communion at 10 o'clock. Morning prayer at 10:30 o'clock will be followed by a service at 12 o'clock at which Rev. George Hodges, rector of the church, will preach a sermon. Rev. Henderson Field will be the celebrant. The usual afternoon services will also be held. At St. John's, organ recitals will be given at 10 a.m. Masses will be sung at St. Vibiana's at 6, 8, 10 and 12 o'clock. The last service will be a solemn high mass at 12 o'clock at which the remains of the deceased at the cathedral this evening and will continue for nine days.

Valentine Notes.

The wife of Capt. W. S. Mapes, thirty-second United States Infantry, who has two exceedingly interesting babies, is giving a benefit for her husband from May 15. One of them was once the property of Agassiz, and the other is in the custody of Mrs. George Washington Carver, a native of Ireland. Mrs. Mapes will be present, and the family and friends will be there.

FUNERAL NOTICE.

NOTICE TO TAXPAYERS.

In order that the assessment roll may be completed within the specified time, all statements of property liable for taxation in this county must be filed in this office, or before Monday, May 15, 1900. After that date, no property not listed will be subject to arbitrary assessment.

ALICE CALDWELL, County Assessor.

MYSTIC SHRINERS.

SPECIAL RECEPTION GIVEN AT THE WHITE HOUSE.

J. P. NIGHT REPORT.

WASHINGTON, May 21.—The Imperial Council of the Mystic Shrine completed its twenty-sixth annual session here today. Kansas City was chosen as the oasis where the tribes shall gather next year, and June 11 was fixed as the dates. Following long deliberation, the choice of the officers for the preceding year was moved forward to the position immediately ahead of the one occupied by the one who was chosen to preside over the Imperial Order. This distinction was unanimously given to Noble Henry A. Collins of Toronto, Canada.

President and Mrs. McKinley gave a special reception at the White House in honor of the visiting shriners. It lasted from 8:30 to 10:30 o'clock, and was largely attended. The shriners were entertained by the officers for the preceding year.

The Marine Band furnished the music. The President and wife were assisted in receiving by the ladies of the Cabinet.

MARRIAGE LICENSES.

The following marriage licenses were issued yesterday from the office of the County Clerk:

John F. Davis, aged 24, a native of England, and a resident of Fullerton, and Mary E. H. Hough, a native of Missouri and a resident of Los Angeles.
